Engaging Online Patient Education

[REGISTER](#) [LOGIN](#)

At UAMSpatientslearn.org, we are committed to providing our patients with the education they need to be well prepared for whatever may come their way. We use the valuable resources made available at the University of Arkansas for Medical Sciences (UAMS) to provide the most up-to-date medical information. These resources include a vast knowledge base from established providers, educators and research. We then prepare interactive, engaging courses you will want to take for your health and wellness. This patient-centered approach is what sets UAMSpatientslearn.org apart from other online medical education.
