Dear Committee Members:

Chancellor G. David Gearhart, University of Arkansas, Fayetteville, requests approval to select two (2) on-call civil engineering firms for professional services contracts for deferred maintenance or minor renovation projects on the campus. Board of Trustees selection guidelines have been followed concerning advertisement, notification, and interviews in accordance with Board Policy 740.2.

Nine firms responded to the advertisement and five were interviewed. The selection committee was in agreement that four of the five firms were most suited for these contracts based on past and current experience with a range of projects of varying scope and budgets. The order listed below indicates the committee’s ranking for these firms. Therefore, the selection committee would like to offer the following civil engineering firms to the Board of Trustees for consideration with the top two firms in bold recommended:

1. McGoodwin, Williams & Yates (Fayetteville)
2. Morrison-Shipleys Engineers (Fort Smith, Bentonville and Searcy)
3. Jorgensen & Associates (Fayetteville)
4. USI Consulting Engineers / EB Landworks (Springdale/Fayetteville)

I concur with Chancellor Gearhart’s recommendation. A proposed resolution is attached for your consideration.

Sincerely,

Donald R. Bobbitt
President

Item 4: Request for Approval of the Purchase of Property Located at 1475 W. Cato Springs Road, Fayetteville, UAF (Action)
TO MEMBERS OF THE BUILDINGS AND GROUNDS COMMITTEE:
Dr. Stephen Broughton, Chair
Mr. Cliff Gibson
Mr. John Goodson
Mr. Reynie Rutledge
Chair Jane Rogers, Ex-Officio

Dear Committee Members:

Chancellor G. David Gearhart has requested approval for the purchase of the Office Lab Building known as the BioBased Building, with its parking lot and underlying property, which the University is currently leasing, plus 14.74+ acres of property located at 1475 W. Cato Springs Road located in Fayetteville.

The property consists of a two-floor 28,982 square foot industrial building designed for offices and laboratories. It is a LEED Silver designed structure and including the building site, the property consists of a total of 18.22+ acres.

The property was appraised at $6,395,000 by the University’s appraiser and for $8,535,000 by the seller’s appraiser. The seller’s appraisal included furnishings and furniture not included in the University’s appraisal report. While the present value of the furnishings would be depreciated from the list cost of $417,000, the replacement value of the furnishings would likely be higher and these furnishings are serving current needs quite adequately. These furnishings will be included with the purchase. Both appraisals are based on comparable properties and there was professional disagreement about what comparable properties were appropriate. Instead of getting a third appraisal, University staff had further discussions with our appraiser who compared the two appraisals and provided his view of the differences between the two. He concluded that “But in the end if I was to analyze the lease between the U of A and BioBased it looks like the total value including excess land would fall somewhere around the $7.5 million area.” Facilities Management estimated that current replacement of the building alone would be $12 million.

An offer in the amount of $7,800,000 was submitted to and accepted by the owner, BioBased Realty LLC. Funding for purchase of this property will be from 2014 bonds with the annual debt service paid from currently budgeted lease costs on the building. The building is needed to house the recently created Department of Biomedical Engineering. Additional acreage is needed for new intramural courts and fields.

A resolution is attached for your consideration. I recommend its approval.

Sincerely,

Donald R. Bobbitt
President

Dear Committee Members:

Chancellor G. David Gearhart, University of Arkansas, Fayetteville, requests approval of a project to renovate the Pi Kappa Alpha Fraternity House on Arkansas Avenue. A copy of the Capital Project Proposal Form is attached for your information.

The Monticello Corporation of Pi Kappa Alpha had selected the architect, Cyntergy AEC of Tulsa (the principal being an Arkansas PIKE Alumnus), when they expected to manage the funding and construction themselves. Considerable work has been performed by the architect which is beneficial to the project. The architect contract has been assigned to the University with changes to conform to our standard requirements and with the University’s ability to use plans, specifications and design work to date. In order to complete the project, Pi Kappa Alpha agreed to adopt the Greek Plan and standard lease agreement for constructing, managing, and operating the House. The University has bid the project and worked with the team including Facilities Management, Pi Kappa Alpha, Cyntergy, and Cone Construction to develop a project that is feasible.

I concur with Dr. Gearhart’s recommendation to approve this project. A proposed resolution is attached for your consideration.

Sincerely,

Donald R. Bobbitt
President

CAPITAL PROJECT PROPOSAL FORM

Campus—FAYETTEVILLE  Name of Proposed Facility—PI KAPPA ALPHA FRATERNITY
RENOVATION AND ADDITION

1. Project Function

The building will serve as housing for the Pi Kappa Alpha Fraternity, Alpha Zeta Chapter, including sleeping rooms, bathrooms, kitchen and dining room, library/study hall, a recreation room, common spaces for chapter meetings and other functions, and a house mother suite. Also planned are an extended front porch and back patio. The renovation and addition, including the addition of a second floor and roof terrace to the original one-story public wing, have been designed with LEED and Green Globes criteria in mind, though a decision has yet to be made about certifying the project.

2. Facility Location & Description

Located at 320 Arkansas Avenue, Pi Kappa Alpha was constructed in 1949. The building was designed by John Williams, founder of the University of Arkansas School of Architecture, with Paul Young, Jr. of Fayetteville as the architect of record.

The house is significant as one of the earliest International Style buildings in the area. The house is composed of two wings of differing heights—the public wing is one story while the residential wing is three—and is constructed of reinforced concrete with brick-over-block exterior walls. The exterior is a modernist composition with large expanses of red brick, interrupted by a blocky sandstone chimney and a timber pergola. The entrance is deeply recessed between the two wings, next to the stone chimney. The steel windows, alternating between fixed and single-hung, are arranged in a long horizontal bands, typical of the International Style. The house is a primary\(^1\) contributing building to the University of Arkansas Campus Historic District, listed on the National Register of Historic Places in 2009.

3. Total Project Cost

The total project cost is currently estimated at $6.9 million. The construction portion of this project will be competitively bid.

\(^1\) Primary Status: historic resources that possess a high level of historic or architectural significance and contribute to the character of the campus
4. Parking Plan to Support New or Expanded Facility

The existing parking area on the site will remain, but will be reconfigured as necessary to meet new egress and service requirements for the building.

5. Source of Project Funds

This project will be funded from Pi Kappa Alpha sources:

a. Private gifts of $1.6 million

b. 2014 bond proceeds of $5.3 million with annual debt service supported from room and board rates and parlor fees.

University of Arkansas, Fayetteville
Status Report:
Facility Renewal and Stewardship Plan
(Five Years of the Facility Fee)

During early FY08, the University of Arkansas System President and Board of Trustees were briefed by Chancellor Gearhart on the overall facility condition of the University’s Education and General Access (E&G - Academic) buildings.

Our overall facility condition had reached a point where the combination of age and accumulating critical deferred maintenance were directly impacting our ability to continue delivering a world-class educational experience.

Chancellor Gearhart proposed and the President/Board of Trustees approved implementation of a student semester credit hour fee and additional internal financial commitments within our operating budget, development efforts, grants, private gifts, and other miscellaneous sources of dedicated funds. Our first $2.00 per credit hour increment was approved by the Board of Trustees in spring 2008 for FY09. Each year since that initial $2.00 increment, the Board of Trustees has approved additional $2.00 increments until we reached our original 2008-stated target amount of $10.00 per credit hour for FY13.

Our Attachment 1 contains an updated summary table illustrating our progress after five years (FY09-FY13) toward our original 15-year plan goals (FY09-FY23) supported by the Board of Trustees since 2008 and for which our students, faculty, and staff will be forever grateful for your foresight.

Attachment 1 also provides an updated 15-year resource plan based on where we were at the end of FY13, five years into the plan timeline and updates the original 15-year plan for the entire period FY09-FY23. Based on our recent growth in student FTE, we now estimate the overall plan investment will grow from $243.1M to $303.0M over the 15 years.

Attachment 2 provides additional details on what has been accomplished or will be through the end of FY13, after five years of the plan implementation.

One particular area of focus from the beginning has been general access classroom modernization and teaching lab modernization. We can proudly state that over the past five years our impact has been widespread. We have in some way worked in over 125 general access classrooms located in 21 buildings on campus. During this same time period, we have impacted over 45 teaching lab/lab-related spaces located in three primary buildings. Our progress is on target for general access classrooms (original target was 160 classrooms) and perhaps a bit ahead of target for teaching labs (original target was 40 labs). Total investment over this period in these two focus areas will exceed $16M through FY13. We need to note that the vast majority of this work has gone on without major impacts to the academic schedules while at the same time adding thousands of new students and additional faculty and staff.

Another significant indicator is our current estimated level of critical deferred maintenance at the end of FY13, which was approximately $163M across approximately 4,550,000 gross square feet of E&G space. In 2008, when the Facility Renewal and Stewardship Plan initiative was first proposed these figures were approximately $243M across approximately 4,200,000 gross square
feet. Our target goal for the future would be to hold this deferred maintenance number in the $50M-$75M range on what will then be approaching an E&G Plant Replacement Value (PRV) of $2B.

Attachment 3 is informational in nature as we do not currently have a fully resourced plan to address all these facilities but we wanted to keep you aware of what major work we have remaining on our campus in the renewal and stewardship category for future years and future programming. We remain committed on all existing and newly constructed buildings to continue to provide the appropriate levels of preventative and reactive maintenance of building systems to minimize future, critical deferred maintenance. This effort along with targeted major repair/replacement of entire systems and/or major system components must continue to be accomplished in order to not adversely impact our world-class academic mission. Attachment 4 lists a spectrum of challenges that exist for us as we continue to pursue our campus facility renewal and stewardship goals in the coming years.

Your University of Arkansas team, with the President’s and our Board of Trustee’s strong leadership and demonstrated commitment, has allowed us to become a national leader in facility and infrastructure stewardship for higher education. This leadership role has been achieved even though we’ve had to navigate the worst recession in the past 80 years while growing in both overall numbers and most importantly in national/international reputation as a very high research designated institution.

As we quickly approach 2021—our 150th anniversary of our founding—we remain your “You of A.”

Dear Committee Members:

Chancellor Joel E. Anderson, University of Arkansas at Little Rock, has requested your approval to name the UALR Student Services Center, the “Charles W. Donaldson Student Services Center.” The Center opened some 18 months ago and Dr. Donaldson, a 40-year employee, served the last 21 years as Vice Chancellor for Educational Student Services and Student Life. Dr. Anderson provided the following information concerning his request:

“Dr. Charles Donaldson joined UALR in 1973 as a Counselor for Student Special Services, and was promoted to serve in several capacities which included Director of Career Planning and Placement and Adjunct Assistant Professor; Assistant Professor; Associate Professor; Acting Associate Vice Chancellor for Educational Services; Associate Vice Chancellor for Educational Student Services and Student Life; and Vice Chancellor for Educational Student Services and Student Life. He retired June 30, 2013.

Dr. Donaldson was instrumental in the success of the Rwandan Presidential Scholars program; the African American Male Initiative; and the Chancellor’s Leadership Corps, as well as the construction and completion of student housing with the implementation of a meal plan, the Student Services Center, Trojan Grill, and the Coleman Sports and Recreation Complex.

Dr. Donaldson has been a source of inspiration for students, employees, faculty colleagues, administrators, and all who have come into contact with him. Naming the building for Dr. Donaldson would do more than honor the long career of excellent service and the numerous contributions he made to the university. It would also serve as continuing inspiration to members of the university community who recognized that Dr. Donaldson was a cut above, both as a person and as an able and devoted employee. Further, it would inspire present and future students who came to know Dr. Donaldson and the elevating example he was.”

I concur with Chancellor Anderson’s request and have attached a resolution for your consideration. Also, attached is a resolution adopted by the UALR Board of Visitors unanimously endorsing this recommendation.

Sincerely,

Dear Committee Members:

Chancellor Steve Cole at Cossatot Community College of the University of Arkansas requests approval to accept a donation of property located on Highway 317 East in Lockesburg, Arkansas, from the De Queen, Arkansas Board of Education.

The property consists of 2.75 acres, more or less, with six buildings situated on it. The property was formerly used as the Lockesburg High School. Act 318 of 2013 allows school districts that have been absorbed by consolidation to donate their unused property to a community or technical college as long as it is used for educational purposes. The Act further requires that should the property not be used for educational purposes it will revert back to the donating school district.

Chancellor Cole believes the strategic location of the property will serve their existing campuses well. The De Queen, Arkansas Board of Education and Cossatot’s Board of Visitors approve and support this donation.

A resolution is attached for your consideration. I recommend its approval.

Sincerely,

Upon motion by Trustee Goodson and second by Trustee von Gremp, the following committee items were reported on and approved:
3.1 Approval of Safety Management Report:

Dr. Roxane Townsend reviewed the UAMS Safety Management Report for January 2013–June 2013. The Hazard Report System provides employees, visitors and patients with an opportunity to report potential hazards identified anywhere on the UAMS campus and a method to resolve them. Six hazards were reported during the two quarters. All areas of concerns have been evaluated for safety. Hazardous waste is managed through the Occupational Health and Safety Department. A total of 3,228 gallons of chemical waste were disposed of during the time period. Two chemical spills were reported during the quarters, which were cleaned with no adverse effects.

In order to comply with The Joint Commission standards the UAMS Fire Safety Division conducts fire drills on each shift quarterly in all patient care buildings. For the six month period, the fire drill average score was 9.5 out of a possible 10.

Emergency Preparedness has been engaged in exercise development and execution over the past quarter as well as finalizing the development of a University wide delivery of an active shooter (Code Black) educational program. The active shooter educational program is mandatory for all supervisors/managers at the University.

The UAMS OSHA Recordable Incident and Injury Rate is based on OSHA criteria for reportable injuries. The UAMS rate of 1.91 and 2.09 for the third and fourth quarters of FY13 is well below the healthcare industry rates in Arkansas (4.60) and the U.S. (5.00).

3.2 Approval of the Patient Complaints and Grievances Policy and Procedures:

Dr. Nicholas Lang presented the UAMS Medical Center Patient Complaints and Grievances Policy and Procedure. The University of Arkansas Board of Trustees delegates responsibility for the effective operation of the grievance process to the Patient Complaint Oversight Committee. The Patient Complaint Oversight Committee is a sub-committee of the Quality Assurance/Performance Improvement medical staff committee and reports quarterly to this committee. Dr. Lang reviewed the policy revisions.

3.3 Review of the Performance Improvement and Patient Safety Report:

Dr. Nicholas Lang presented the Performance Improvement and Patient Safety Report for the first quarter of 2013. Work continues on The Joint Commission and the Center of Medicare and Medicaid Services (CMS) performance measures. Improvement action plans are in place for measures not meeting targets. The Joint
Commission surveyed the palliative care program on April 5, 2013. On April 30, 2013 the UAMS Palliative Care Program was awarded a certificate of distinction for Advanced Certification in Palliative Care. This certification is designed to recognize hospital inpatient programs that demonstrate exceptional patient and family centered care in order to optimize the quality of life for patients needing symptom relief. Few other programs in the nation have achieved certification at this time and achievement of this certification has given UAMS early recognition in this specialty. UAMS Medical Center continues to monitor the National Patient Safety Goals (NPSG). Performance improvement changes are initiated where opportunities for improvement are identified.

3.4 Review of the Institutional Compliance Report:

Mr. Robert Bishop presented the Institutional Compliance Report for January through June 2013. Coding in-services for both inpatient and outpatient have been performed on a monthly basis which includes preparing for ICD-10. The Hospital Compliance Office has conducted several in-services and audio conferences for applicable hospital staff covering various topics. Mr. Bishop reviewed the CMS FY2014 IPPS Final Rule regarding hospital inpatient admissions which require more than ‘two midnights’ in the hospital. The compliance department is working to implement this new regulation by October 1, 2013.

3.5 Review of UAMS Medical Center and Faculty Group Practice Key Operations Indicators and Accounts Receivable:

Mr. Dan Riley reviewed UAMS Medical Center’s key workload indicators for the period ending June 2013. Compared to the previous year, adult discharges increased compared to the previous year. Surgical cases, emergency department cases and clinic visits increased slightly compared to the previous year. Cash collections increased slightly compared to the previous year.

Dr. Charles Smith presented Faculty Group Practice accounts receivable data through June 2013. Dr. Smith stated charges increased as compared to the same period of the prior year. Cash collections increased compared to the previous year. Accounts Receivable was $60.7 million, an increase compared to the same period of the prior year.

3.6 UConnect Update:

Dr. Roxane Townsend introduced Thomas Powell, MD, Chief Medical Information Officer. Dr. Powell was hired May 1, 2013 and his responsibilities
include supporting the development of clinical information systems to improve the delivery of patient care.

Mr. Dave Miller provided an update on the UConnect project that will integrate all patient information into one Electronic Medical Record (EMR) that will be used across the UAMS campus – including inpatient, outpatient, pharmacy, radiology and lab records. Scheduling, Registration and Real Time Eligibility went live on July 22, 2013. Ambulatory Pharmacy went live on July 29, 2013 and EpicCare Ambulatory, HIM and Professional Billing went live August 1, 2013. They are currently updating the Wave 2 Project plan and timeline.

3.7 Arkansas’ Implementation of the Affordable Care Act:

Dr. Roxane Townsend outlined the efforts by UAMS Medical Center to assist the Arkansas Insurance Department in providing Certified Assistance Counselors. In addition, the Medical Center is preparing to guide patients who are eligible for the Private Option into the insurance market through the Medicaid Web Portal.

The Medical Center anticipates an increase in bottom line revenue through avoidance of providing the state match for Disproportionate Share Hospital (DSH) payments. If 75% of the uninsured patients obtain coverage through the private insurers, the hospital could achieve an increase in revenue of nearly $8 million that would help to offset the other decreases in revenue due to reductions in Medicare and other federal programs.

3.8 Chief Executive Officer Report:

Dr. Roxane Townsend discussed initiatives ongoing within the Center for Patients and Families. A new Family Presence Policy has been implemented and the Vice Chancellor of the Center is engaged with the Chief Medical Officers to improve HCAHPS scores regarding patient satisfaction.

The increasing collaboration between the College of Medicine and the Clinical Programs was outlined. This includes the development of a new office headed by Justin Hunt, MD, and Mr. Tim Hill who are working with communities throughout the state to provide telemedicine and other support enhancing the concept of “Best Care Closest to Home”.

Kurt Salmon and Associates has completed the Ambulatory Enhancement project. Ten goals have been identified and the work is ongoing to implement changes.
4. **Report on Audit Committee Meeting Held September 12, 2013:**

5.9 Campus Report: Chancellor G. David Gearhart, UAF:

The University of Arkansas has seen exciting changes in the past year. Due to the University’s status as the school of choice in Arkansas, 25,400 students enrolled this fall, setting an enrollment record. This growth will help to increase the number of Arkansans with college degrees and contribute to the economy of the state. Dr. John English was appointed Dean of the College of Engineering. Newly named Vice Chancellor for Diversity and Community Charles Robinson has done an excellent job in recruiting diverse and talented students to come to the U of A. Students are not only enrolling in the University at higher rates, but also graduating at a rate of more
than 60 percent. The increase in student population led to the need to construct new facilities, many of which are finished or nearing completion.

The University of Arkansas has implemented a cost savings and containment program that has resulted in almost $62 million in cost reduction. CAMPUS REPORT: CHANCELLOR JOEL E. ANDERSON, UNIVERSITY OF ARKANSAS AT LITTLE ROCK
October 25, 2013

Dr. Donald R. Bobbitt, President
University of Arkansas System
2404 N. University Avenue
Little Rock, AR 72207

Dear Dr. Bobbitt:

The University of Arkansas at Little Rock has just completed an eight-month period of reviewing, debating, and developing a restructured university organization covering all major divisions of the institution.

Established policy and procedure requires that the University of Arkansas Board of Trustees be informed of the changes, as well as the Arkansas Department of Higher Education and the Arkansas Higher Education Coordinating Board. Therefore, I request an opportunity in the agenda of the upcoming Board of Trustees meeting to inform the Board of the restructuring plans.

You will find attachments that provide an overview of the restructuring process and the upcoming changes, along with a graphic illustration of the new administrative and academic structures. The changes will begin on December 1, 2013, and end next July 1, 2014.

Sincerely yours,

Joel E. Anderson
Chancellor

UALR Administrative Restructuring - October 2013

Introduction

As the history of every institution shows, including this one, no structure is forever. What worked well for UALR twenty-five years ago does not necessarily work best for UALR today. The purpose of restructuring is to re-shape the university to operate more successfully and more responsively within its current and future environment.

The current higher education climate necessitates change. The university faces changing student demographics, declining state support, changing accreditation standards, a call to double the number of graduates by 2025, performance funding, frequent legislative mandates, more competition from both public and private universities, increasing technology demands, and persistent political turbulence in Washington, D.C. Twenty-five years ago the environment faced by public universities was less complicated and less threatening.

Of specific concern today, the university’s enrollment growth has stalled and is down. As is true of other public institutions across the nation, the share of the university’s budget funded by the state has been in steady decline. The share of the university’s budget funded by student tuition and fees has been on a steady incline.

Highlights of the new UALR Structure

The new university structure:

- Reduces the number of vice chancellors from seven to four: Executive Vice Chancellor and Provost, Vice Chancellor for Finance and Administration, Vice Chancellor for Advancement, and Vice Chancellor for Enrollment Management;
- Reconfigures the academic colleges and reduces their number from six to five;
- Merges Student Affairs into Academic Affairs;
- Consolidates data management functions into Academic Affairs;
- Gathers a number of outreach units into a new Center for Community Connections under the provost;
- Places Information Technology Services into Finance and Administration; and
- Creates an Advancement Division that includes alumni, development, and communications.
- The academic colleges were reduced in number from six to five: College of Business; College of Education and Health Professions; College of Arts, Letters, and Sciences; College of Social Sciences and Communications; and College of Engineering and Information Technology.
- The Vice Provost for Research will become the Vice Provost for Research, Innovation, and Economic Development.
- The position of Associate Provost for the Center for Arkansas History and Culture has been expanded to Associate Provost for UALR Collections and Archives, which will include the Ottenheimer Library, the Center for Arkansas History and Culture, and the Sequoyah National Research Center.
• The Associate Vice Chancellor for Academic Programs position will now include Institutional Effectiveness and bring together data management functions of the university.

This new administrative structure houses all academic functions within Academic Affairs, facilitates a culture of student success through grouping like-units to enhance collaboration, and reduces unnecessary duplication of human and financial resources. More rational relationships among units will simplify interactions, increase efficiency, and remove barriers to student progress. Slimming down the administrative structure is another step that helps in controlling costs.

In addition to the financial advantages, the reduction of the number of administrative vice chancellors will allow the chancellor more time to focus energy off campus to protect and promote the interests of the university. This is one more important reason to strengthen the hands of vice chancellor in directing campus affairs.

Background and Process

The university formally began its restructuring review on February 13, 2013, with a memo from Chancellor Anderson to Provost Zulma Toro requesting that she begin the process for determining a possible restructuring of the Division of Academic Affairs at UALR.

Provost Toro developed an academic restructuring process that involved three committees—Faculty Task Force, Chairs’ Task Force, and the Academic Restructuring Steering Committee (ARSC). (The ARSC is also referred to as the Academic Restructuring Task Force.) The ARSC was asked to review the recommendations from the faculty and chair task forces, town hall meetings, and stakeholder interviews and then present a final report to the provost by August 15. In the course of its work the ARSC brought to campus a consultant from Arizona State University, an institution regarded as progressive in its effort to adjust to the broad changes affecting higher education.

After receiving the ARSC report, Dr. Toro engaged in meetings with the leadership teams of UALR colleges, with the exception of the College of Business and the Bowen School of Law for which no structural changes were recommended. Dr. Toro also met with the Interim Vice Provost for Research and Dean of the Graduate School. The provost engaged the Academic Affairs Division at all levels in an effort to frame UALR’s academic vision.

While the academic restructuring process was underway, the chancellor initiated a further review of the university’s administrative structure.

As noted in the chancellor’s August 23, 2013, memo to the campus, administrative restructuring at UALR has been occurring over the last two years. Prior to the formal restructuring process, the vice chancellors and the chancellor engaged in careful internal assessments, and the group received the benefit of external consultant recommendations, which resulted in three significant administrative changes: the merger of alumni and development operations; the formation of a new Enrollment Management Division with vice chancellor-level leadership; and the creation of
a new Digital Strategy department that joined the web functions from Information Technology Services with those in the Office of Communications.

Those changes to UALR’s administrative structure were deemed advantageous to the university’s fundraising efforts and essential to enrollment goals. They were not, however, comprehensive. The retirement of three vice chancellors in June 2013 brought about unprecedented opportunity to assess and refine the university’s overall administrative structure.

In mid-July, the chancellor convened his Direct Report Group (DRG) for a retreat focused solely on administrative restructuring. The goal for the retreat was to reach consensus on alternative options for the university’s administrative structure. Nothing was considered off the discussion table. During this retreat, the DRG developed two new organizational charts—a four vice chancellor model, and a five vice chancellor model. Those two drafts (Version A and Version B) were then presented to the Chancellor’s Leadership Group (CLG) the first week of August at their annual retreat, which this year also included members of the ARSC. This group of 50 campus leaders analyzed and discussed the two administrative restructuring drafts, and they provided additional input on potential administrative structures. In both the DRG retreat and the CLG retreat, campus leaders benefited from the assistance of an outside professional facilitator.

Following the CLG retreat, a third model, Version C, was developed which reflected several different ideas expressed at the retreat, particularly related to the organizational placement of outreach units of the university.

On August 23, the chancellor presented the three organizational models for consideration and comment by the campus community in the Chancellor’s Office Blackboard community. He also established an Administrative Restructuring Hearing Committee, which held two open meetings, September 3 and September 11, to solicit feedback. Comments were closed in Blackboard on September 20. The Administrative Restructuring Hearing Committee submitted its report on September 30.

Provost Toro submitted her final recommendation on academic restructuring to the chancellor on October 1, 2013.

PRESIDENT'S REPORT: DONALD R. BOBBITT, UNIVERSITY OF ARKANSAS SYSTEM
Item 8: Consideration of Request for Approval of a Proposal to Create a Center for Grid-Connected Advanced Power Electronic Systems (GRAPES), UAF (Action)
TO THE MEMBERS OF THE BOARD OF TRUSTEES

Dear Trustees:

Chancellor G. David Gearhart, University of Arkansas, Fayetteville, has requested approval of a proposal to create a Center for Grid-connected Advanced Power Electronic Systems (GRAPES), effective spring 2014. A summary of the proposal is attached.

The mission of GRAPES is to accelerate the adoption and insertion of power electronics into the electric grid in order to improve system stability, flexibility, robustness and economy. This work will involve power electronic circuit design, advanced electronic packaging, semiconductor device evaluation and modeling, integrated circuit design, controls, power systems and high power testing in the NCREPT test facility at the Arkansas Research and Technology Park.

Central to the mission is the education of undergraduate and graduate students with unique capabilities in all aspects of power electronics and power engineering. Undergraduate students will engage in short-term projects to become familiar with the nature and substance of activities in their field of interest and trained for job opportunities in their field. Graduate students will be involved with long-term projects that will lead to their MS and/or PhD thesis in these areas. GRAPES is a National Science Foundation (NSF) Industry/University Cooperative Research Center (I/UCRC) that has been operating since 2009 (www.grapes.uark.edu). It is a two-university center with the University of South Carolina.

The proposal has received the necessary campus approvals. I concur with Chancellor Gearhart’s recommendation and have attached a resolution for your consideration.

Sincerely,

Donald R. Bobbitt
President

Item 9:  Request for Approval of a Proposal to Add a Collaborative Piano Concentration to the Master of Music Degree, UAF (Action)

REQUEST FOR APPROVAL OF A PROPOSAL TO ADD A COLLABORATIVE PIANO CONCENTRATION TO THE MASTER OF MUSIC DEGREE, UAF (ACTION)
TO THE MEMBERS OF THE BOARD OF TRUSTEES

Dear Trustees:

Chancellor G. David Gearhart, University of Arkansas, Fayetteville, has requested approval of a proposal to add a Collaborative Piano Concentration to the Master of Music degree in the Department of Music in the J. William Fulbright College of Arts and Sciences, effective fall 2014. A summary of the proposal is attached.

The Collaborative Piano program is becoming one of the most important piano programs throughout the United States, rivaling the Solo Piano Performance degree in numbers and significance. Qualified and experienced collaborative pianists are in high demand because their knowledge of various instruments and voices can be of valuable assistance to their collaborator both in the learning process of the repertoire and the actual performance. In addition, most college job descriptions for piano faculty positions currently include collaborating with fellow faculty members.

The proposal has received the necessary campus approvals. I concur with Chancellor Gearhart’s recommendation and have attached a resolution for your consideration.

Sincerely,

Master of Music Collaborative Piano

NEW OPTION, CONCENTRATION, EMPHASIS
(Maximum 18 semester credit hours of new theory courses and 6 credit hours of new practicum courses)

1. INSTITUTION SUBMITTING REQUEST:
   University of Arkansas, Fayetteville

2. CONTACT PERSON/TITLE:
   Sharon L. Gaber, Provost and Vice-Chancellor for Academic Affairs

3. PROPOSED EFFECTIVE DATE:
   Fall 2014

4. TITLE OF DEGREE PROGRAM:
   Master of Music

5. PROPOSED OPTION/CONCENTRATION/EMPHASIS NAME:
   Collaborative Piano

6. REASON FOR PROPOSED ACTION:

   The Collaborative Piano Program is becoming one of the most important piano programs throughout the United States, rivaling the “Solo” Piano Performance degree in numbers and significance. Increasing numbers of excellent pianists realize that even with the solo performance degree, few pianists can make a living by solo performances. Moreover, qualified and experienced collaborative pianists are in high demand because their knowledge of various instruments and voices can be of valuable assistance to their collaborator both in the learning process of the repertoire as well as the actual performance. In addition, most college job descriptions for piano faculty positions currently include "collaborating" with fellow faculty members.

7. NEW OPTION/CONCENTRATION/EMPHASIS OBJECTIVE:

   The major emphasis of the MM in Collaborative Piano is to assist students in preparing for the role of an accompanying piano artist. Students will be required to learn
collaborative instrumental and vocal repertoire consistent with the interests of the student and will be required to play at least five performances each semester.

8. PROVIDE THE CURRICULUM OUTLINE:

Requirements for the Master of Music in Collaborative Piano: (36 hours)

APPLIED MUSIC (16 hours)
1. MUAP 510V: Applied Collaborative Piano for four semesters (14 hours)
2. MUAP 5201, 5211: Two Recitals as Collaborative Pianist (2 hours)

Item 10: Request for Approval of a Proposal to Consolidate the MA in German and MA in French into the MA in Modern Languages, German Track and French Track, UAF (Action)

REQUEST FOR APPROVAL OF A PROPOSAL TO CONSOLIDATE THE MA IN GERMAN AND MA IN FRENCH INTO THE MA IN MODERN LANGUAGES, GERMAN TRACK AND FRENCH TRACK, UAF (ACTION)
TO THE MEMBERS OF THE BOARD OF TRUSTEES

Dear Trustees:

Chancellor G. David Gearhart, University of Arkansas, Fayetteville, has requested approval of a proposal to consolidate the Master of Arts degree in German and the Master of Arts degree in French into the Master of Arts degree in Modern Languages, German Track, and the Master of Arts degree in Modern Languages, French Track, in the Department of World Languages, Literatures and Cultures, effective fall 2014. A summary of the proposal is attached.

In an effort to better prepare graduates for the changing job market, the German and French sections are instituting a new Master of Arts requiring six hours of technology / pedagogy courses within the 36 hours required for the traditional German and French M.A. degrees. Currently, many students elect to take these courses, but this change would formally require the courses as a six-hour core for a new combined M.A. in Modern Language with a Concentration in German or French. As these courses are currently already being offered, the changes would require no additional investment of resources.

The proposal has received the necessary campus approvals. I concur with Chancellor Gearhart’s recommendation and have attached a resolution for your consideration.

Sincerely,

Item 11: Notification of a Proposal to Change the Name of the BS in Education with a Major in Community Health Promotions to the BS in Education with a Major in Public Health, UAF (Information)
TO THE MEMBERS OF THE BOARD OF TRUSTEES

Dear Trustees:

Chancellor G. David Gearhart, University of Arkansas, Fayetteville, has requested that you be notified of a proposal to change the name of the Bachelor of Science in Education with a major in Community Health Promotions to the Bachelor of Science in Education with a major in Public Health, effective fall 2014. A summary of the proposal is attached.

The name change is more reflective of the trend in the profession and is necessary for impending accreditation criteria put forth by the Council on Education for Public Health. This will likely increase the marketability of the students in terms of future employment or placement in graduate programs and increase the marketability of the major to students. This change will not impact any other degree program. No program components will be eliminated, and there is no change to the curriculum.

The proposal has received the necessary campus approvals. Following the Board meeting, a letter of notification will be sent to the Arkansas Department of Higher Education.

CONSIDERATION OF REQUEST FOR APPROVAL OF ADDITIONAL EXTRACURRICULAR CAMPS, UAF (ACTION)
November 12, 2013

TO THE MEMBERS OF THE BOARD OF TRUSTEES

Dear Trustees:

Dr. G. David Gearhart, Chancellor of the University of Arkansas, Fayetteville, has requested approval to hold a golf academy that was not included on their original request for camps approved at the April 5, 2013 Board meeting. There has been great interest in an academy in this area. The requested dates for the academy are February 4, March 4, and April 8. As with all camps, this camp will be beneficial for recruiting purposes for men’s golf and will be a good service to offer to young athletes.

I recommend the golf academy be authorized. A resolution is attached for your consideration.

Sincerely,

Donald R. Bobbitt
President

Item 14: Approval to Reconfigure the BS in IT & Delete the AAS in IT & Minors in IT-Web Development & IT-Database Technology, UAFS (Action)
TO THE MEMBERS OF THE BOARD OF TRUSTEES

Dear Trustees:

Chancellor Paul Beran, University of Arkansas at Fort Smith, has requested approval of a proposal to reconfigure the Bachelor of Science in Information Technology (BS-IT) and delete the Associate of Applied Science in Information Technology and two minors in Information Technology: Web Development and Database Technology, effective summer 2014. A summary of the proposal is attached.

Compliance with Act 747 stipulating that bachelor's degrees consist of no more than 120 credit hours has provided an opportunity to reconfigure the existing Bachelor of Science in Information Technology degree program. Reconfiguration of the degree will allow UAFS to delete courses that are no longer relevant to the discipline due to out-of-date content in a constantly evolving field. New courses are those most relevant to today's technological trends. The reconfiguration will also align the program with guidelines of the Accreditation Board for Engineering and Technology (ABET), the agency from which UAFS will seek accreditation of the program.

The proposal has received the necessary campus approvals. I concur with Chancellor Beran's recommendation and have attached a resolution for your consideration.

Sincerely,

Donald R. Bobbitt
President

2. CONTACT PERSON/TITLE:

   Dr. Mark Arant, Dean, College of Science, Technology, Engineering and Mathematics

3. TITLE OF DEGREE PROGRAM TO BE RECONFIGURED:
   Bachelor of Science in Information Technology (BS-IT)

4. PROPOSED EFFECTIVE DATE:
   Summer I 2014

5. REASON FOR PROPOSED PROGRAM RECONFIGURATION:
   Compliance with Act 747 stipulating that bachelor's degrees consist of no more than 120 credit hours has provided an opportunity to reconfigure the Bachelor of Science in Information Technology (BS-IT) degree program. Reconfiguration of the degree is needed to delete courses that are no longer relevant to the discipline due to out-of-date content in a constantly evolving field. New courses being added are those most relevant to today's technological trends. The reconfiguration also aligns the program with guidelines of the Accreditation Board for Engineering and Technology (ABET), the agency from which the department will seek accreditation of the program.

   The reconfigured BS-IT will consist of 45 hours of general education requirements, plus 45 hours of core requirements and 30 hours of a concentration in Programming, Network, Database, Web Design, Security, Game Design, or a General concentration. Higher levels of math will be required to better prepare students for the information technology courses introduced in the reconfigured degree plan.

   Fall 2013 current enrollment is 383 majors, up from 340 from the same time last year and demonstrating a 6.7 percent growth. This growth is projected to continue, if not increase, over the foreseeable future based on market demands for professional information technology/computer related professions.

6. PROVIDE CURRENT AND PROPOSED CURRICULUM OUTLINE BY SEMESTER. INDICATE TOTAL SEMESTER CREDIT HOURS REQUIRED FOR THE PROPOSED PROGRAM. UNDERLINE NEW COURSES AND PROVIDE NEW COURSE DESCRIPTIONS. (IF EXISTING COURSES HAVE BEEN MODIFIED TO CREATE NEW

techniques such as fraud, denial of service activities, spoofing, social engineering and e-mail scams such as phishing will be introduced along with foundational network forensics and investigative techniques.

**CS 4533 Digital Insider and Corporate Crimes**
Introduction to crimes where technology was utilized at the administrative and corporate levels. Crimes involving fraud, embezzlement and other crimes where digital media is used to perpetuate a crime are examined. Techniques in locating the residual evidence that remains on electronic devices. Included are the reading and discussions of court decisions concerning insider and corporate crimes.

**CS 4903 Information Technology Special Topics**
Emerging and advanced technologies in information technology, which are not currently offered in the curriculum. Offered periodically, based on need. This course may be repeated for a total of six hours.

**CS 4913 Information Technology Internship**
An intensive field experience that draws from the areas of exposure during the bachelor's degree program in Information Technology. Internship is for students pursuing the Information Technology degree. The internship program includes both cooperative, educational experiences and extended job shadowing. This course may be repeated for a total of six hours.

**CS 499V Information Technology Independent Study**
Student is allowed to work individually or within an acceptable team setting to study and/or design acceptable information technology issues and techniques. Can be used to offer a variety of topics that enhance the student's educational pursuits in areas not covered by other course material. Open only to students with demonstrated ability to perform research and adequately document their findings. Course may be repeated for a total of six hours.
7. PROVIDE PROGRAM BUDGET. INDICATE AMOUNT OF FUNDS AVAILABLE FOR REALLOCATION.

No new resources, equipment, supplies, or facilities will be needed to offer the reconfigured BS-IT; current resources as reflected in the budget (APPENDIX A) will be sufficient.

8. ARE THE EXISTING DEGREES OFFERED OFF-CAMPUS OR VIA DISTANCE DELIVERY?

The reconfigured BS-IT will continue to be offered off campus through distance delivery and onsite instruction at the following Arkansas Delta institutions comprising the Arkansas Delta Training and Education Consortium (ADTEC).

9. LIST INSTITUTIONS OFFERING SIMILAR PROGRAM AND IDENTIFY THE INSTITUTIONS USED AS A MODEL TO DEVELOP THE PROPOSED PROGRAM.

Faculty in the Department of Computer Information Sciences reviewed the information technology curriculum of the Rochester Institute of Technology (www.rit.edu). Various institutions in the region and United States were also reviewed in an effort to locate an innovative model. Department faculty met with companies that hire UAFS graduates and also spoke with alumni and concluded that the proposed reconfiguration is the best model. Many colleges and universities are offering different components of this model, but to the best of our knowledge UAFS is the only university offering this type of curriculum.

The number of students seeking this degree has steadily declined over the past three years and we have fewer and fewer program completers. Students currently showing as enrolled in this program are also seeking our CDA certificate of proficiency. The courses that constitute the CDA will remain on our inventory. We are strongly advising students in this major to move to the AAT P-4 degree as it, along with transfer and BSE completion is now the standard for preschool teaching professionals. All declared continuously enrolled students currently in the program will be offered the option to change their majors or complete the program, but no new students will be admitted.

REQUEST FOR APPROVAL OF REVISION TO BOARD POLICY 300.1, CONTRACTING AUTHORITY, ALL CAMPUSES AND UNITS
TO THE MEMBERS OF THE BOARD OF TRUSTEES

Dear Trustees:

To improve efficiencies, Vice President for Administration Ann Kemp, after consulting with General Counsel Fred Harrison, recommends an amendment to Board Policy 300.1, Contracting Authority, to allow for the delegation of contracting authority for commitments to build or renovate a facility for a cost of $1,000,000 or less. Currently the policy does not allow the President to delegate contracting authority for construction projects in any amount. Campuses will still be required to follow all applicable State of Arkansas requirements as well as System policies pertaining to capital construction. These policies are outlined in detail on the UA System Administration Website.

A resolution amending Board Policy 300.1 is attached for your consideration, with the added language **bolded**. I recommend its approval.

Sincerely,

RESOLUTION

BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE UNIVERSITY OF ARKANSAS THAT Board Policy 300.1, Contracting Authority, shall be and hereby is amended, in part, to read as follows:

BOARD POLICY

300.1

CONTRACTING AUTHORITY

I. General Authority

The President and the Chief Fiscal Officer are authorized and directed to serve as the contracting officers, fully authorized to execute contracts on behalf of the Board of Trustees, in its name, or on behalf of the University of Arkansas in that name.

Any contract shall indicate the particular campus of the University of Arkansas for which the contract is applicable. Contracts are not to be made in the name of a campus as a contracting party since there is only one legal entity capable of contracting for the one institution ("University of Arkansas"), either in that institutional name or in that of its governing board ("Board of Trustees of the University of Arkansas"). Contracts made in the name of a campus, school or college, academic department, etc., are unenforceable.

The President is authorized to delegate, or withdraw such delegation, to the Chancellors, Vice President for Agriculture, or other appropriate individuals, the authority to contract in the name of the University of Arkansas for business activities in the normal course of operations when it is deemed that the efficiency, effectiveness, and best interests of the University will be well served by such delegation, and provided that such agreements must receive appropriate legal review or be entered into upon standard contract forms developed, or approved for such purposes, by the General Counsel of the University. Further, the President shall not delegate authority for contracts which include (a) a commitment to build or renovate a facility in excess of One Million Dollars ($1,000,000), (b) a commitment to initiate or expand an academic program, (c) a commitment to continued expenditures of University funds beyond the term of the contract, and (d) a contract amount which exceeds $250,000 individually or $250,000 in the aggregate when involving connected transactions. The President shall establish procedures for the review of contracts for professional and consultant services prior to their execution pursuant to the authority delegated by the President under this policy.
